Board of Education Agenda Item

Item: G.                                        Date: April 26, 2006

Topic: First Review of a Recommendation of the Advisory Board on Teacher Education and Licensure to Grant Continuing Program Approval with Stipulations to the Teacher Education Program at Saint Paul’s College

Presenter: Dr. Thomas A. Elliott, Assistant Superintendent, Division of Teacher Education, Licensure, and Professional Practice

Telephone Number: (804) 371-2522                  E-Mail Address: Thomas A. Elliott@doe.virginia.gov

Origin:

___ Topic presented for information only (no board action required)

___ Board review required by

    ___ State or federal law or regulation

    ___ Board of Education regulation

   ___ Other: __________

___ Action requested at this meeting: The board will receive ABTEL’s recommendation for first review

___ Action requested at future meeting: _________ (date)

Previous Review/Action:

___ No previous board review/action

___ Previous review/action

date __________________
action ____________________

Background Information:

The Regulations Governing Approved Programs for Virginia Institutions of Higher Education require colleges and universities that offer programs for the preparation of professional educators to obtain continuing program approval from the Board of Education. In Virginia, the review and approval of programs is viewed as the shared responsibility of institutions of higher education, school divisions, and the Department of Education. Final approval rests with the Board of Education.

The regulations define the standards that must be met and the review procedures that must be followed to obtain and maintain board approval. The regulations currently provide three options for the review of teacher education programs: 1) the state review process for which the college or university must meet the standards established by Board of Education regulations; 2) the National Council for the Accreditation of Teacher Education (NCATE) process for which the college or university must meet the board’s teaching area requirements and the NCATE standards; and 3) the Teacher Education
Accreditation Council (TEAC) process for which the college or university must produce an Inquiry Brief and supporting evidence that its program meets the board’s teaching area requirements and prepares competent, caring, qualified professional educators. In all three, the institution hosts an on-site visit by a team of trained reviewers who develop a report of findings that is submitted to the Department of Education. After a review of the report of findings, the Advisory Board on Teacher Education and Licensure (ABTEL) makes a recommendation to the Board of Education for final action.

Summary of Major Elements:

During spring 2005, seven Virginia colleges and universities were scheduled for on-site program reviews. Of the seven, one was reviewed using the NCATE process and six were reviewed under the Board of Education process. The Board of Education regulations set forth 20 standards in the following four categories:

I. Program Design;
II. Faculty;
III. Candidates; and
IV. Program Operation/Accountability.

The review team makes a recommendation of met or not met for each of the 20 standards. In addition, the team makes a recommendation of approval, approval with stipulations, or denial for the teacher preparation program. The review of undergraduate programs for teacher preparation at Saint Paul’s College was conducted March 20-23 2005, in accordance with the standards and procedures outlined in the regulations.

Saint Paul’s College was founded in 1888 and is one of Virginia’s historically Black colleges. A private, co-educational college associated with the Episcopal Church, the school was incorporated originally as the Saint Paul Normal and Industrial School. A department of teacher training was started in 1922 and was recognized by the Board of Education in 1926. The college prepares students for careers and graduate studies in the humanities, social sciences, education, business, mathematics, and natural sciences. Saint Paul’s purpose “is to provide an academic environment that promotes the vision of its founder to educate all students, especially the underserved, with educational, cultural, spiritual, and life-long learning experiences that will enable them to lead in a technological and global society.”

The team recommendation for the teacher preparation program at Saint Paul’s College is continuing approval with stipulations. A recommendation of approval with stipulations is made when the institution’s teacher education program does not meet all standards or has met the standards with weaknesses. The review team made the recommendation of approval with stipulations based on the finding that 5 of 18 applicable standards were not met. Specific indicators of the five standards not met include the following:

1. There is little evidence that candidates have acquired the knowledge and skills needed to succeed on the Praxis I assessment in reading, writing, and mathematics;
2. Evidence regarding Praxis II was not presented because the data has not been systematically collected;
3. Additional information is needed to identify all competencies on the program matrices;
4. Professional studies coursework exceeds the 24-hour limit for elementary and special
education and exceeds the 18-hour limit for other endorsement areas; and

5. The teaching load for full-time faculty of 15 hours per semester does not accommodate and
support faculty involvement in teaching, scholarship, and service. Additionally, a recruitment
and retention policy that includes an explicit plan with adequate resources to hire and retain a
qualified and diverse faculty was not evident.

At the November 21, 2005, ABTEL meeting, the Teacher Education Committee of ABTEL requested to
review the full report of the on-site visit as well as meet with officials regarding the recommendation of
the state team. At its February 6, 2006, and March 20, 2006, meetings, the Teacher Education
Committee of ABTEL discussed the findings of the on-site review team. Officials of Saint Paul’s
College presented information on improvements made in the teacher preparation program since the
March 2005 review and provided the Department of Education with responses to the standards that were
not met when the visit was conducted. Significant progress at the college included the following:

- For spring semester 2006, 44 traditional candidates are pursuing teaching
endorsements the Department of Education at Saint Paul’s College;

- Saint Paul’s College serves a growing population of nontraditional candidates (career
switchers) in the underserved region of Southside Virginia. During the 2003-2006
academic years, this population has averaged more than 50 candidates per year
seeking licensure preparation;

- Two new Praxis I and Praxis II preparation courses have been implemented. These
courses feature individualized instruction by faculty in specific discipline areas,
tutoring, and access to Plato (a computer-based Praxis preparation system);

- Two faculty members with doctoral degrees have been hired;

- A reform of the general education curriculum was implemented during fall 2004 and
continues to provide a foundation for candidates pursuing teacher education;

- The Department of Education at Saint Paul’s College has developed a system to
monitor candidate progress and collect data on candidate achievement and;

- Professional studies coursework has been adjusted to meet the cap established by the
Board of Education; and

- Faculty loads have been adjusted within the college’s Department of Education.

At its March 20, 2006, meeting, ABTEL approved a motion to continue program approval with
stipulations at Saint Paul’s College. The advisory board’s action was based on the significant progress
the college has made toward fulfilling the requirements of the unmet standards since the review team
visit. Additionally, the president of the college, the provost, and the director of teacher education met
with the advisory board and assured ABTEL of their commitment to the continued enhancement of the
teacher preparation program at Saint Paul’s College through the implementation of specific strategies
and documentation of progress toward continued improvement. The approval with stipulations is
contingent upon continued progress at the college in the areas of: (1) alignment with the teacher education standards; (2) data development and annual maintenance of information on candidate progress; (3) service to the community through programs for nontraditional students; and (4) annual reports to the Department of Education on progress made based on the contingencies.

**Superintendent's Recommendation:**

The Acting Superintendent of Public Instruction recommends that the Board of Education receive for first review ABTEL’s recommendation to grant continuing program approval with stipulations to the teacher education program at Saint Paul’s College, contingent upon continued progress at the college in the areas of: (1) alignment with the teacher education standards; (2) data development and annual maintenance of information on candidate progress; (3) service to the community through programs for nontraditional students; and (4) annual reports to the Department of Education on progress made based on the contingencies.

**Impact on Resources:**

Expenses incurred during on-site review of teacher education programs are funded by the hosting institution.

**Timetable for Further Review/Action:**

Teacher preparation programs reviewed under the state approval process are conducted on a seven year cycle. Programs that meet standards for full approval will be reviewed again on the established cycle.
